About

Outstanding frontend developer with experience in latest advanced web tecknologies. My objective as a frontend developer is to apply my technical skills in IT craftsmanship and IT implementation, and to utilize my knowledge in web configuration and troubleshooting to fulfill the company's vision and mission. I aim to bring success to the company by designing specific IT solutions that will address technical issues usually encountered in a frontend environment. I am a team player, open to adapt changes and a great problem solver. With this said, I can assure that I can be a useful talent of the company.

Experience

Administrator   Dec. 2018 - April. 2020 (~1.5 years)
Dervish Hostel, Uzbekistan

I was responsible for managing big hostel in bukhara city. My common tasks were: managing tourists' arrivals and departures, organizing city tours for them and solving their problems.
